

Inquiry-based Learning: Physics with Phone Sensors

Partnering with LLNL Scientists to Bring Hands-on Activities to Your Classroom

- LLNL scientists will lead activity virtually or come to your classroom
- Activities designed for middle school and high school students
- Times available to match your school schedule
- Students will use their own phones with free applications
- All additional supplies provided by LLNL

You Pick the Topic

- Kinematics
- Forces
- Circular motion
- Momentum and collisions
- Fluids
- Oscillatory motion
- Mechanical waves and sound
- Electromagnetic waves
- Magnetism
